# Introduction

# GreaterHeight Technologies is recognized as the greatest development organization in Nigeria and the world at large.

---

We have been developing lives since 2018, and our core values of excellence, service, mentoring, innovation, respect, transformational leadership have never wavered and never will. No other organization offers the unique combination of individual/organization excellence, commitment to public service like GreaterHeight Technologies.

What makes GreaterHeight Technologies truly stand out are our intangibles: the openness, freedom and acceptance in mentoring & solution, technology, businesses and spirituality that are impossible to affect lives and companies with just statistics and facts. We all need to develop lives in a way that engenders excitement, confidence and a desire to participate in our mission.

## **THIS IS AN EXCITING TIME FOR GREATERHEIGHT TECHNOLOGIES.**

While some see economic recession as an obstacle, we recognize it as an opportunity to develop a stronger GreaterHeight I voice. Our reputation extends far beyond the Bay Area, making a transformative impact on everything from development and the environment to local and global economies.

This document is a guide to identifying and developing our unique future-oriented stance, in a way that we collectively contribute to GreaterHeight Technologies success.

# Who is this book for?

Anyone at or outside GreaterHeight Technologies who develops individuals, organizations and nation should find this book a helpful and inspiring resource.

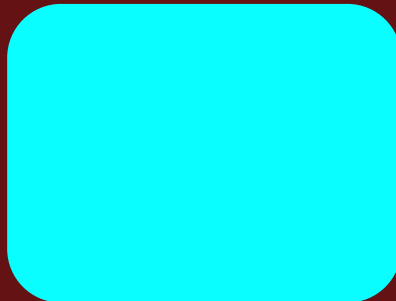

Departmental heads can use this guide as a platform to focus their initiatives.

Lead IT consulting firms and every purpose-driven individuals and organizations can use it to provide examples for the creation of new, impactful mentoring & solution, technology and business relevance.

Writers can use it to draw inspiration when they create stories about the achievements of their individual departments.

Designers can mine the rich veins of typography, color palettes and design elements to give life to their creations.

# What will this book help GreaterHeight Technologies do?

We all want to tell a compelling, forward-thinking story about the GreaterHeight Technologies experience. While there are many different internal and external benefactors and audiences, the tools in this book should inspire each of us to take part in the GreaterHeight Technologies story and achievement, and to collectively and individually benefit from being part of it.

# How should this book be used?

## **To clarify**

GreaterHeight Technologies' unique qualities, advantages and capabilities.

## **To ensure**

key themes are present in all developments.

## **To encourage**

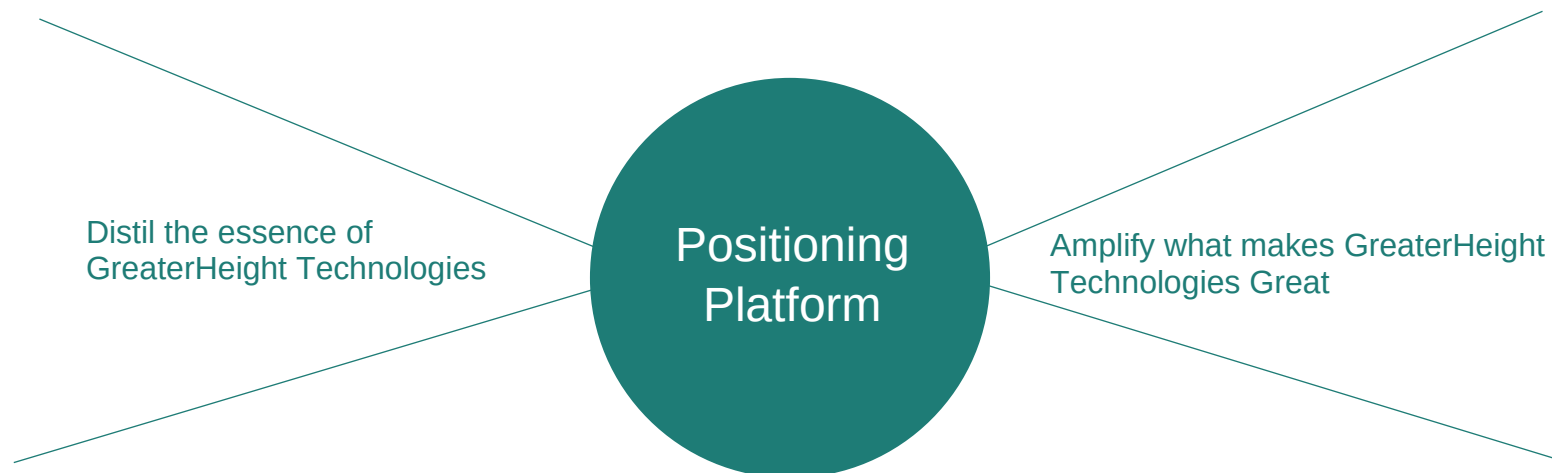

internal and external advocates for GreaterHeight Technologies.

# Telling Our Story

# What went into this book?

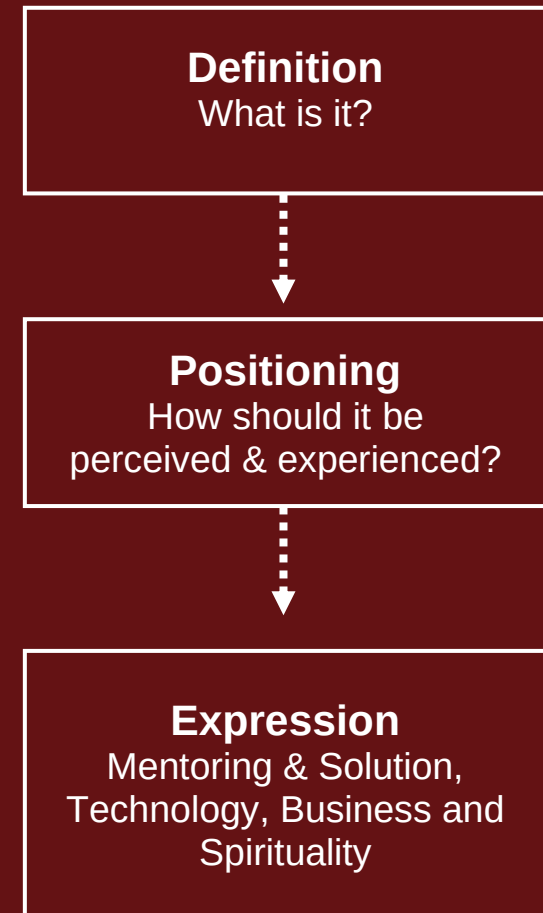

This book is the result of a strategic process that began with a broad mentoring and development among our most important benefactors and audiences. We analysed the impacts made on individuals, organizations and nations and distilled our insights to discover GreaterHeight Technologies' unique place among mentors and human developments and arrived at a clear positioning and lives impartation platforms. Developments inspired by this platform will amplify awareness and understanding, as they all will be woven from a common thread.

# What is positioning?

Positioning is how we need to be installed in the minds of our most important benefactors and audiences in order to be more impactful and successful. Positioning should be a differentiated, motivational and sustainable impactful thoughts. The unique point making our company stand out from hundreds of others is that 100% client satisfaction has been the highest priority we always stick to. Even more, we would be happy to become more than just a web site design company and a service provider always available to take care of your personal and business needs, but as navigator and guide, helping you out in the dynamically changing and growing world of web development and web site design.

GreaterHeight Technologies' positioning is built upon the attributes and themes on the following pages.

# GreaterHeight Technologies reimagines the world, by challenging convention to shape the future.

---

## **Support for Our Statement**

GreaterHeight Technologies fuels a perpetual renaissance, generating unparalleled intellectual, economic and social value. We integrate impactful development with mentoring, the web/Apps development with the graphics, the business with the solutions, and the spirituality with the advantaged. Our diverse and kinetic community draws inspiration from every discipline, sparks dynamic interactions and produces revelations about the world we aspire to live in. With the drive to ask critical questions and embrace new challenges, we are redefining ourselves and the role of an organization in a changing world.

# How positioning applies

If every development comes from the same conceptual core and connects to its intended benefactor and audience in relevant ways, it will reflect an organization whose impactful whole is greater than the sum of its parts.

# Guidance for individual and organizations

1. Demonstrate through impactful developments how your individual, organization or nation is reimagining the world.
2. Demonstrate how you challenge conventional human developers to shape the future.
3. Be bold and unapologetic.
4. Consider the key themes that best connect with your key benefactors and audiences.
5. Support your messages with facts (previous projects with benefactors) rather than leading with facts.

# Our creative platform

GreaterHeight Technologies' creative platform is an emotional translation of the positioning—condensing all of its important points into a phrase with personality. This is not a tagline or a headline, but a starting point to inspire the look, feel, tone and the practical of IT and Business developments.

# Reach Further

## Support for Our Platform

“Reach Further” is comparative. Lots of organizations have “reach.” Only GreaterHeight Technologies has the depth of talent, diversity of skills and deep-seated drive to do things that continually change individuals, organizations, nations and the world. We reach further. When we “reach further” than others we must constantly reimagine what’s possible — and go beyond what anyone else has done before. That means we have to have attitude: impatience that comes with a willingness to challenge convention. The combination of those two qualities is how we shape the future — which is more than evident in the results, successes and breakthroughs constantly occurring on our nations and throughout the world.

## HOW TO USE IT

### TO GUT-CHECK VOICE

Does the tone of what you’re writing capture the spirit of “Reach Further”? Does it sound like the personality of someone who embodies the idea?

### TO STAY ON MESSAGE

Move beyond facts whenever possible. By addressing the motivation behind our successes, we create a more emotional tie projects with the benefactor/audience.

### TO INFLUENCE VISUAL CHOICES

“Reach Further” isn’t just a copy point. The idea can come through in visual executions as well (more on this in the next sections).

# Crafting content

Every brand has a personality. Voice is how that personality is conveyed verbally. Sentence structure, word choice, tone all create a distinct character and a physically created projects for human development that can only be *GreaterHeight Technologies*. Here's how to do it consistently.

## Our Key Strengths

---

# Conviction/Excellence/Scale/Diversity

These are four key strengths that differentiate GreaterHeight Technologies from other organizations.

If each development message we develop leverages one or more of these strengths, our creative platform will come to life with depth, breadth and longevity.

### REMEMBER

“Reach Further” is not a tag line; it’s the theme to build your stories on.

## How to Use Them

**You can reach further with conviction.** Connect your message to an unwavering belief, cause, or higher calling with your past achievements.

**You can reach further with excellence.** Share stories about individual or collective achievements with pictures that outshine anything attempted before.

**You can reach further with scale.** Demonstrate the impact of GreaterHeight Technologies’ efforts to improve the world around us or change an individual’s life in an extraordinary way.

**You can reach further with diversity.** Show the unique ways in which GreaterHeight Technologies connects disciplines, projects and people to create new paradigms that can transform people and the nations.

## Our Tone

---

Curious/Intense/Optimistic/Influential/  
Socially Conscious/Independent  
/Real/Open

## How to Use It

---

While our strengths help guides content choices, **our tone creates consistency in how that content is delivered.** Keep these words in mind when creating IT and Business developments to maintain a distinct tone of voice and ensure the GreaterHeight Technologies personality shines through.

## Our Voice Is Not

### ~~TRITE~~

We're smart. It's important to always show it.

### ~~SLICK~~

We are authentic.

### ~~SALES-Y~~

"New and improved!" has no place here.

### ~~CORPORATE~~

Always choose words that are simple and direct.  
Never resort to jargon.

Below are several common traps that can prevent the “Reach Further” message from shining through.

## What to Avoid

---

### 1. MATTER OF FACTS

We have a wealth of impressive statistics worth sharing. But it’s just as important to explain the impact and importance of those stats. Instead of leading with a list of statistics (number of programs, family members, Nobel Prize winners), consider leading with a message about GreaterHeight Technologies’ unique ability to create impact, or GreaterHeight Technologies’ unique point of view on a development, or the great efforts a benefactor has taken to uncover a remarkable solution.

### 2. ENOUGH ABOUT US

It’s easy to focus on messaging that touts what we do and how we do it. Find opportunities to pull the benefactors in by explaining how it benefits them.

### 3. STRICTLY LITERAL

Don’t be literal just because people expect you to be. Find opportunities to interject projects/developments in new individuals, organizations and nations. Forms, guidebooks and other pieces of typically straightforward are projects that people can easily notice personality the most.

### 4. THREE. WORD. PHRASES.

It can be tempting to add taglines in this format to programs or departments, but it should be avoided. They can come across as trite and generic.

### 5. PUNS BE GONE

We are more sophisticated and original in our human development projects than bear puns.

Below are five tactics, and resulting examples, to guide you as you create content.

## What to Adopt

---

### TACTIC 1:

#### TALK ABOUT THE PROCESS

##### SAMPLE ARTICLE INTRO:

“Spending months observing telescopic data from the South Pole may seem excessive. But at GreaterHeight Technologies, it resulted in the discovery of a new time period more than 13 billion years old. And we believe that’s worth it.”

### TACTIC 2:

#### ISSUE A CHALLENGE

##### SAMPLE HEADLINE:

“Why aim to earn a million dollars when you can instead aim to save and develop a million lives?”

### TACTIC 3:

#### MAKE A BOLD STATEMENT

##### SAMPLE PARAGRAPH:

“GreaterHeight Technologies is not for everyone. It’s for those who are motivated by a deep desire to do what’s right, to preserve, to protect, to create, to express, to change, to be the very best.”

### tactic 4:

#### TAKE THE HIGH ROAD

##### SAMPLE HEADLINE:

“Nobel Prizes. Fields Medals. Turing Awards. All great. The impact our work can have on the course of humanity? Much greater.”

### tactic 5:

#### DESCRIBE A COMMON MINDSET

##### SAMPLE ADMISSIONS PARAGRAPH:

“Your entire life, you’ve pushed beyond what others were capable of. The question at hand now is not what you’ve accomplished, but what you’ll do next. At GreaterHeight Technologies, people are not only developed in fields like computer science, business, spirituality and software engineering, they’re aiming for goals that will someday redefine their field.

What’s your part? Do you not only want to enter the working world but place your mark upon it? Effect social change? Invent an entirely new industry? At GreaterHeight Technologies, you’ll do it.”

## CREATIVE BRIEF

Using a creative brief for projects make it easy for developments to identify their content priorities. It also ensures that each IT and business developments carry a consistent voice and strong message that focuses on helping people succeed.

# Our Logo, Seal & Spirit Mark

A faint, stylized logo is visible in the background on the right side of the slide. It appears to be a circular emblem with a central cross-like shape and radiating lines, possibly representing a seal or spirit mark.

# Our Logo

The GreaterHeight Technologies' logo represents us at the very highest level and is vitally important to our brand. It acts as a signature, an identifier and a stamp of quality and our company name – they have a fixed relationship that should never be changed in any way. It is, and should always be, the most consistent component in our communications.

In order to maintain this consistency, a few simple guidelines should be followed.

## NOTE

The GreaterHeight Technologies logo should never be recreated or typeset. Only official logo files should be used in communications.

Official logo files can be downloaded from **brand.greaterheight.ng**.

The GreaterHeight Technologies logo as shown here will serve as the company's primary logo and trademark. For more information and to view lists of our trademark licensees, please visit **brand.greaterheight.tech/name/promotion**.

**GREATER HEIGHT**  
*...helping you succeed*

## PRIMARY USAGE

The primary color option for our logo is GreaterHeight Technologies Teal Green and Wine. It is intended to be used on any backgrounds and images in order to maintain legibility.

**The Logo Dark Version** will be used when the background color is light coloured.

## SECONDARY USAGE

Another acceptable color option is to reverse the logo and the names out to White on darker backgrounds and images.

## SECONDARY USAGE

Another acceptable color option is that the primary color option for our logo is GreaterHeight Technologies Teal Green and Wine but the name can be Teal Green and White. It can be on a Dark on Wine and Teal Green backgrounds and images.

The **Logo Light Version** will be used when the background color is in dark coloured

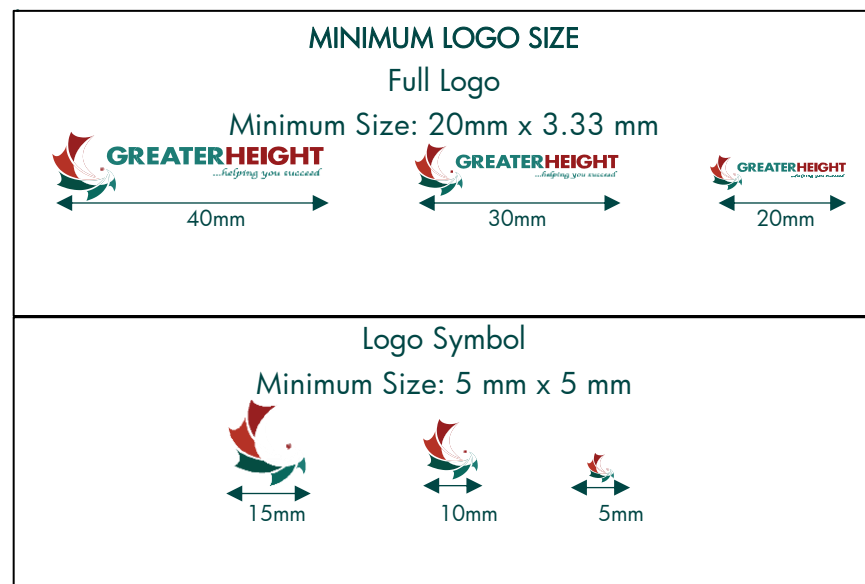

## SIZE

**1) The Logo Symbol** - Consists of a powerful element evoking the culture of design services and a light Teal Green square background.

**2) The Logo Title** - Carefully chosen for its modern and yet refined, highly legible style, which has been further enhanced by the use of upper case letters in light Teal Green tone of the chosen corporate color. The font that is used here is Bold.

## CLEAR SPACE

It is important to keep corporate marks clear of any other graphic elements. To regulate this, an exclusion zone has been established around the corporate mark. This exclusion zone indicates the closest any other graphic element or message can be positioned in relation to the mark of the symbol itself and our company name – they have a fixed relationship that should never be changed in any way.

### Definition

Whenever you use the logo, it should be surrounded with clear space to ensure its visibility and impact. No graphic elements of any kind should invade this zone

### Computation

To work out the clearspace take the height of the logo and divide it in half. (Clearspace = Height / 2).

## PLACEMENT

The preferred placement for the logo is in the lower segment of communications. Anywhere in the outlined areas shown here is acceptable, although corners are preferred. This way, the logo becomes a grounding element that appears consistently on all pieces.

If the bottom zone is unsuitable, it is also acceptable to place the logo anywhere in the horizontal segment at the top within the piece. Again, corners are preferred, but the logo can be centered for more formal communications.

### PARAMETER

#### Dimensions

297 x 210mm

DIN A4

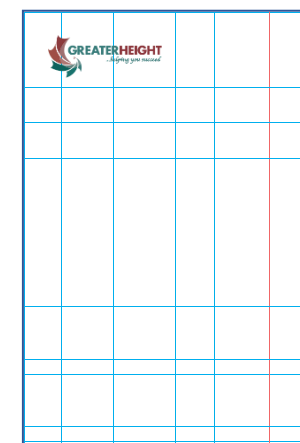

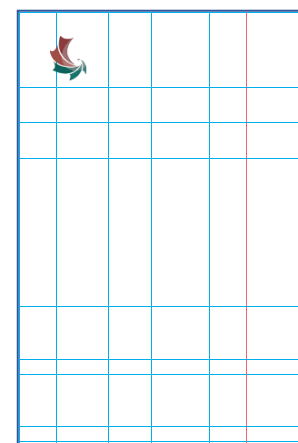

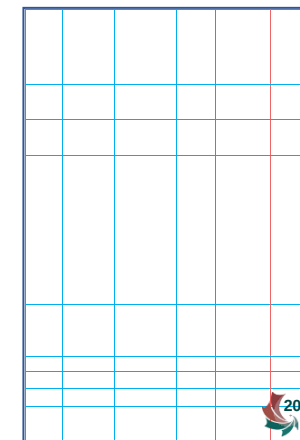

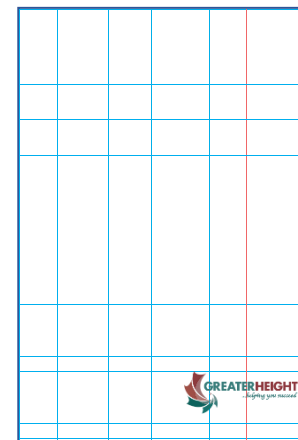

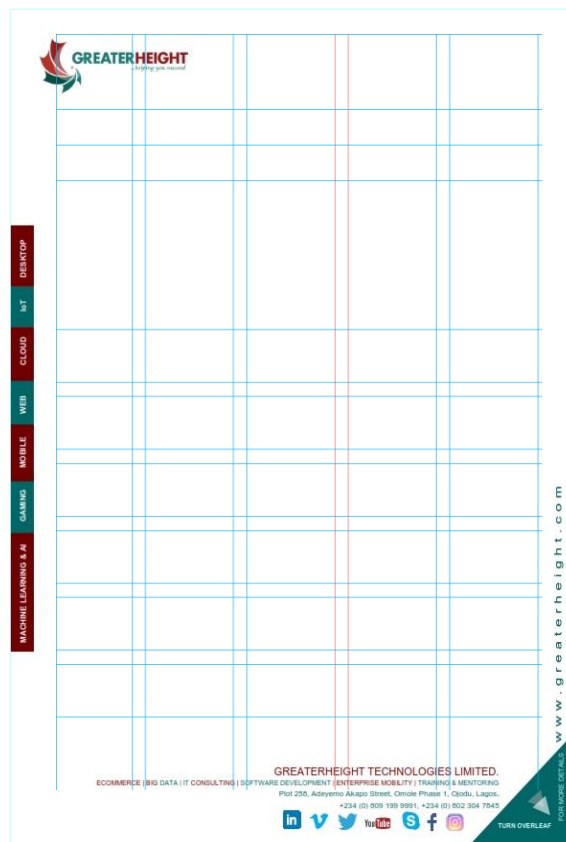

#### Weight

120g/m Uncoated white

#### Print Offset CMYK

#### Paper Type

Mat Paper

### Explanation

This shows the approved layouts with the primary elements of GreaterHeight stationery system for the front and backside of the letterheads

### Usage

The letterhead will be used for all official communication that is going out of GreaterHeight company.

## IMPROPER USAGE

Here are a few examples of practices to avoid.

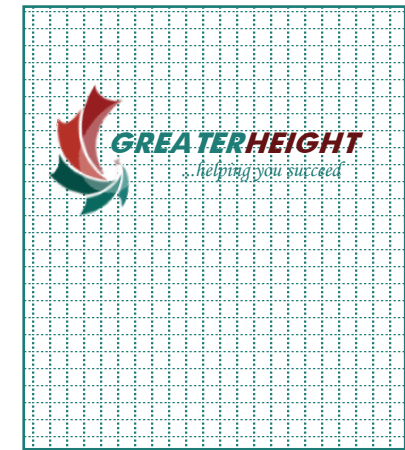

**DON'T** STRETCH, CONDENSE OR CHANGE THE DIMENSIONS OF THE IDENTITY.

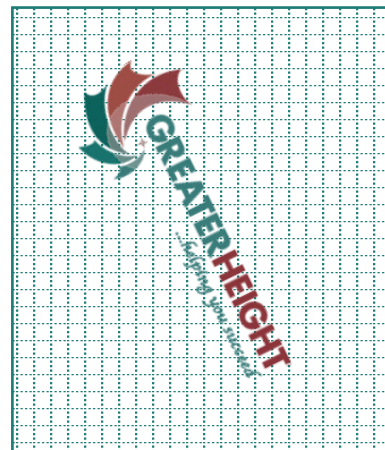

**DON'T** CROP THE WORDMARK.

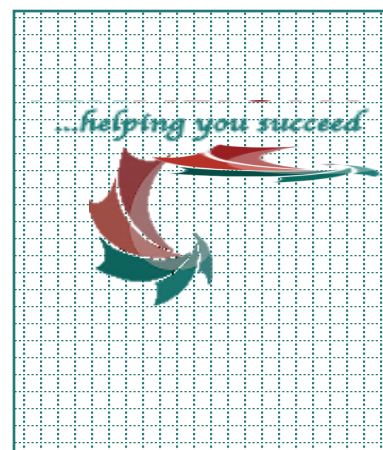

**DON'T** ADD OR CHANGE THE COLOR OF INDIVIDUAL ELEMENTS

**DON'T** SKEW OR BEND THE IDENTITY IN ANY WAY.

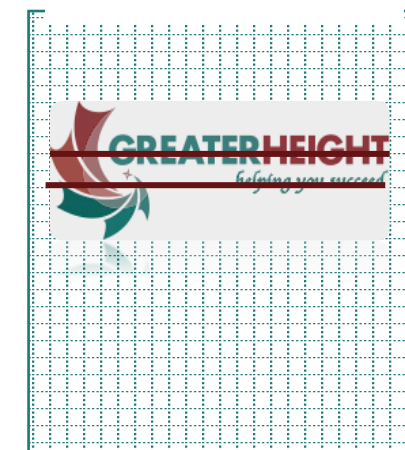

**DON'T** ROTATE THE IDENTITY.

**DON'T** REARRANGE THE PLACEMENT OF THE TYPE WITHIN THE IDENTITY.

**DON'T** ADD ANY EXTRA ELEMENTS TO THE IDENTITY.

**DON'T** USE DROP SHADOWS, STROKES OR OTHER VISUAL EFFECTS.

---

## LOGO USAGE

---

The GreaterHeight Technologies OS typeface is reserved for the GreaterHeight Technologies logo.

All usages of GreaterHeight Technologies OS as a lockup should be reviewed by the Office of Communications.

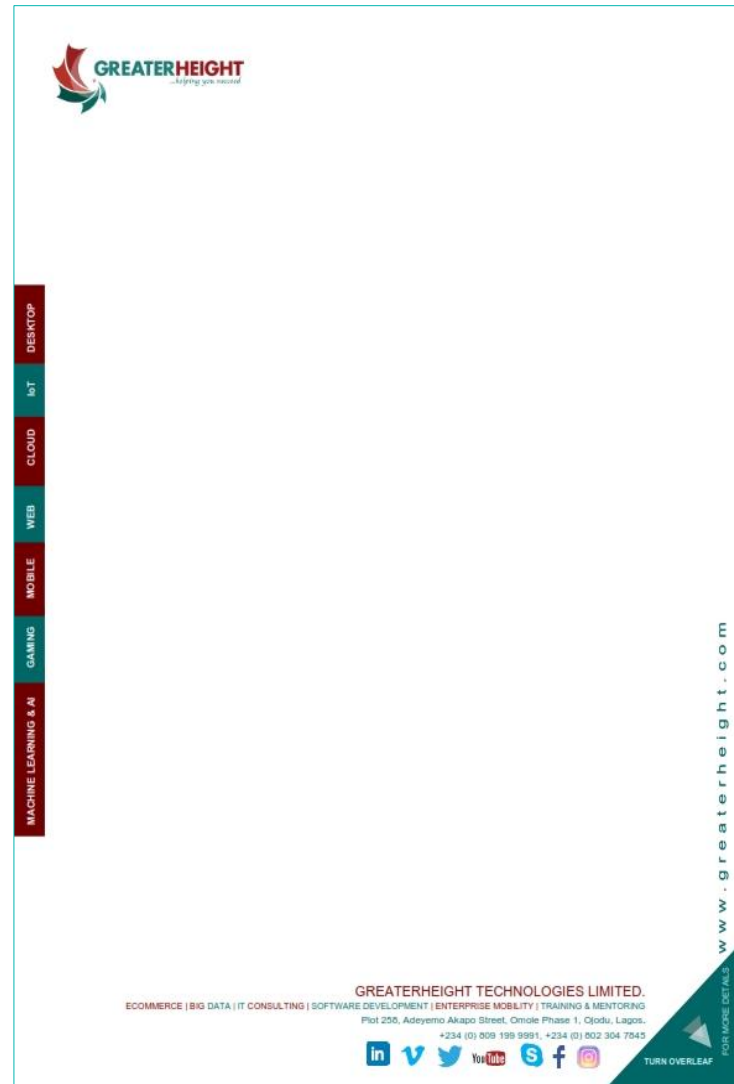

## SAMPLE LOCKUPS

When the organization uses its name as primary identity should pair it with the Segun GreaterHeight Technologies logo in accordance with placement guidelines. Examples (at right) show positioning for publications, letterheads and web banners.

Training / Mentoring, Technology / Business and other departments lockups may use the master logo. In those instances, the “Organization” line should be dropped.

**The Office of Technology, Mentoring and Business is available to consult on design solutions for combining other department names with the GreaterHeight Technologies logo**

## OUR SEAL

The GreaterHeight Technologies seal is an important part of our organization heritage. Our seal is reserved for use on our most official communications. It may also be used on other communications to formally designate that the document or digital message is an official GreaterHeight Technologies communication.

### NOTE

The GreaterHeight Technologies seal (below) is currently used on much of the official GreaterHeight Technologies stationery. This remains acceptable as we transition to our new identity standards.

The GreaterHeight Technologies seal should never be locked up with the GreaterHeight Technologies logo and should not be modified in any way. The versions of the GreaterHeight Technologies seal shown at right are the only versions permitted for future use.

The GreaterHeight Technologies seal has

**TWO-COLOR (PRIMARY)**  
PANTONE ® 562 & PANTONE ® 704

**ONE-COLOR**

**GRAYSCALE**

**BLACK FOR BLACK  
AND WHITE ONLY**

## SIZE

In order to maintain full legibility, never reproduce the seal at widths smaller than 1.25 inches (for print) or 215 pixels (for screen). There is no maximum size limit.

**TWO-COLOR (PRIMARY)**  
PANTONE ® 562 & PANTONE ® 704

≥ 1.25" or 215px

## CLEAR SPACE

Ensure that clear space is maintained around the seal for legibility and prominence. Photos, text and graphic elements must follow these guidelines. Use half the seal's width as a measuring tool to help maintain clearance.

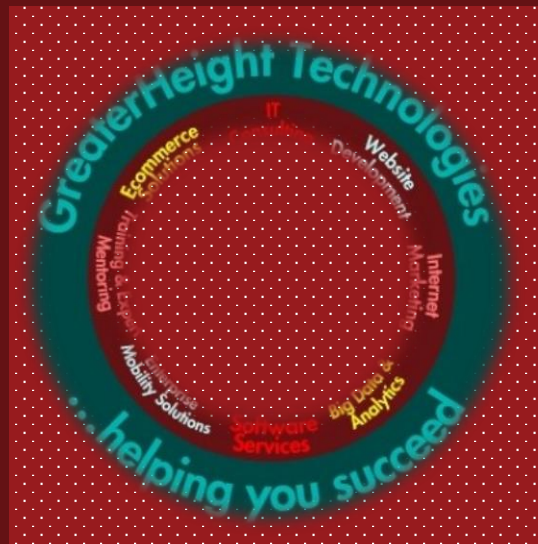

## IMPROPER USAGE

Over the years, several versions of the seal were created. To maintain the integrity of the seal, these versions should never be used.

DON'T USE TRANSPARENCY ON THE LOGO

DON'T USE BORDERLESS

DON'T USE GLOW EDGES, DROP SHADOWS, STROKES OR OTHER VISUAL EFFECTS.

Despite the fact that our rich heritage and our complex and diverse developments, one name is used to represent the organization. This section aims to clear up any confusion. Our logo clearly announces our name, with an emphasis on GreaterHeight Technologies. It is just as important to keep our name consistent in content.

In *first references*, use:

**GreaterHeight Technologies**

In *subsequent references*, use:

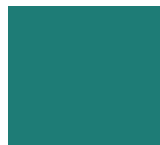

**GreaterHeight Technologies**

### do not use

- Training/Mentoring **GreaterHeight Technologies**
- Technology **GreaterHeight Technologies**
- **GreaterHeight Technology**
- **GreaterHeight Tech.**
- **E.T.C.**

### PRIMARY COLORS

GreaterHeight Technologies brands share uses two heritage colors:

## GreaterHeight CUSTOMIZED GRID SYSTEMS

### A4 VERTICAL GRID SYSTEM EXAMPLES

In graphic design, a grid is a structure made up of a series of intersecting straight (vertical, horizontal, and angular) or curved guide lines used to structure content. The grid serves as an armature on which a designer can organize graphic elements (images, glyph's, paragraphs) in a rational, easy to absorb banner. A grid can be used to organize graphics elements in relation to a page, to other graphic elements on the page, or relation to other parts of the same graphic element or shape.

The background is a solid dark teal color. On the right side, there is a large, stylized rose in a lighter shade of teal. The rose is composed of several curved petals. To the right of the rose, there is a small, four-pointed starburst or spark-like graphic.

# Color

# Our Color Palette

## THE PRIMARY COLOR SYSTEM AND COLOR CODES

Beyond our logo, color is the most recognizable aspect of our brand identity. Color plays an important role in GreaterHeight's corporate identity program. The colors below are recommendations for various media. A palette of primary colors has been developed, which comprise the "One Voice" color scheme. Consistent use of these colors will contribute to the cohesive and harmonious look of GreaterHeight's brand identity across all relevant media. Check with your designer or printer when using the corporate colors that they will be always be consistent.

### NOTE

When using color builds, always use the color values listed here. They were adjusted for the best reproduction in print and on screen and do not match Pantone Color Bridge breakdowns.

Pre-made swatches can be downloaded from [brand.greaterheight.tech](https://brand.greaterheight.tech).

## PRIMARY COLOR SYSTEM

### Explanation:

GreaterHeight Technologies has two official colors: Teal Green and Wine. These colors have become a recognizable identifier for the company.

### Usage:

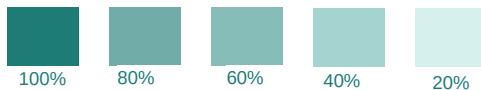

Use them as the dominant color palette for all internal and external visual presentations of the company

### PRIMARY COLOR Teal Green

#### COLOR CODES

#### COLOR TONES

Wine Gradient

#### THE GRADIENT

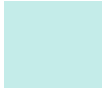

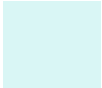

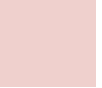

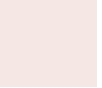

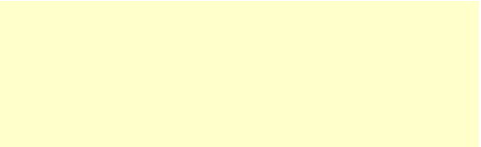

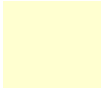

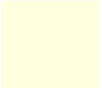

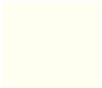

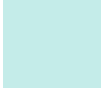

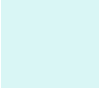

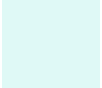

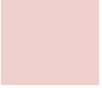

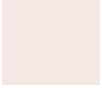

## SECONDARY COLOR SYSTEM

### Explanation:

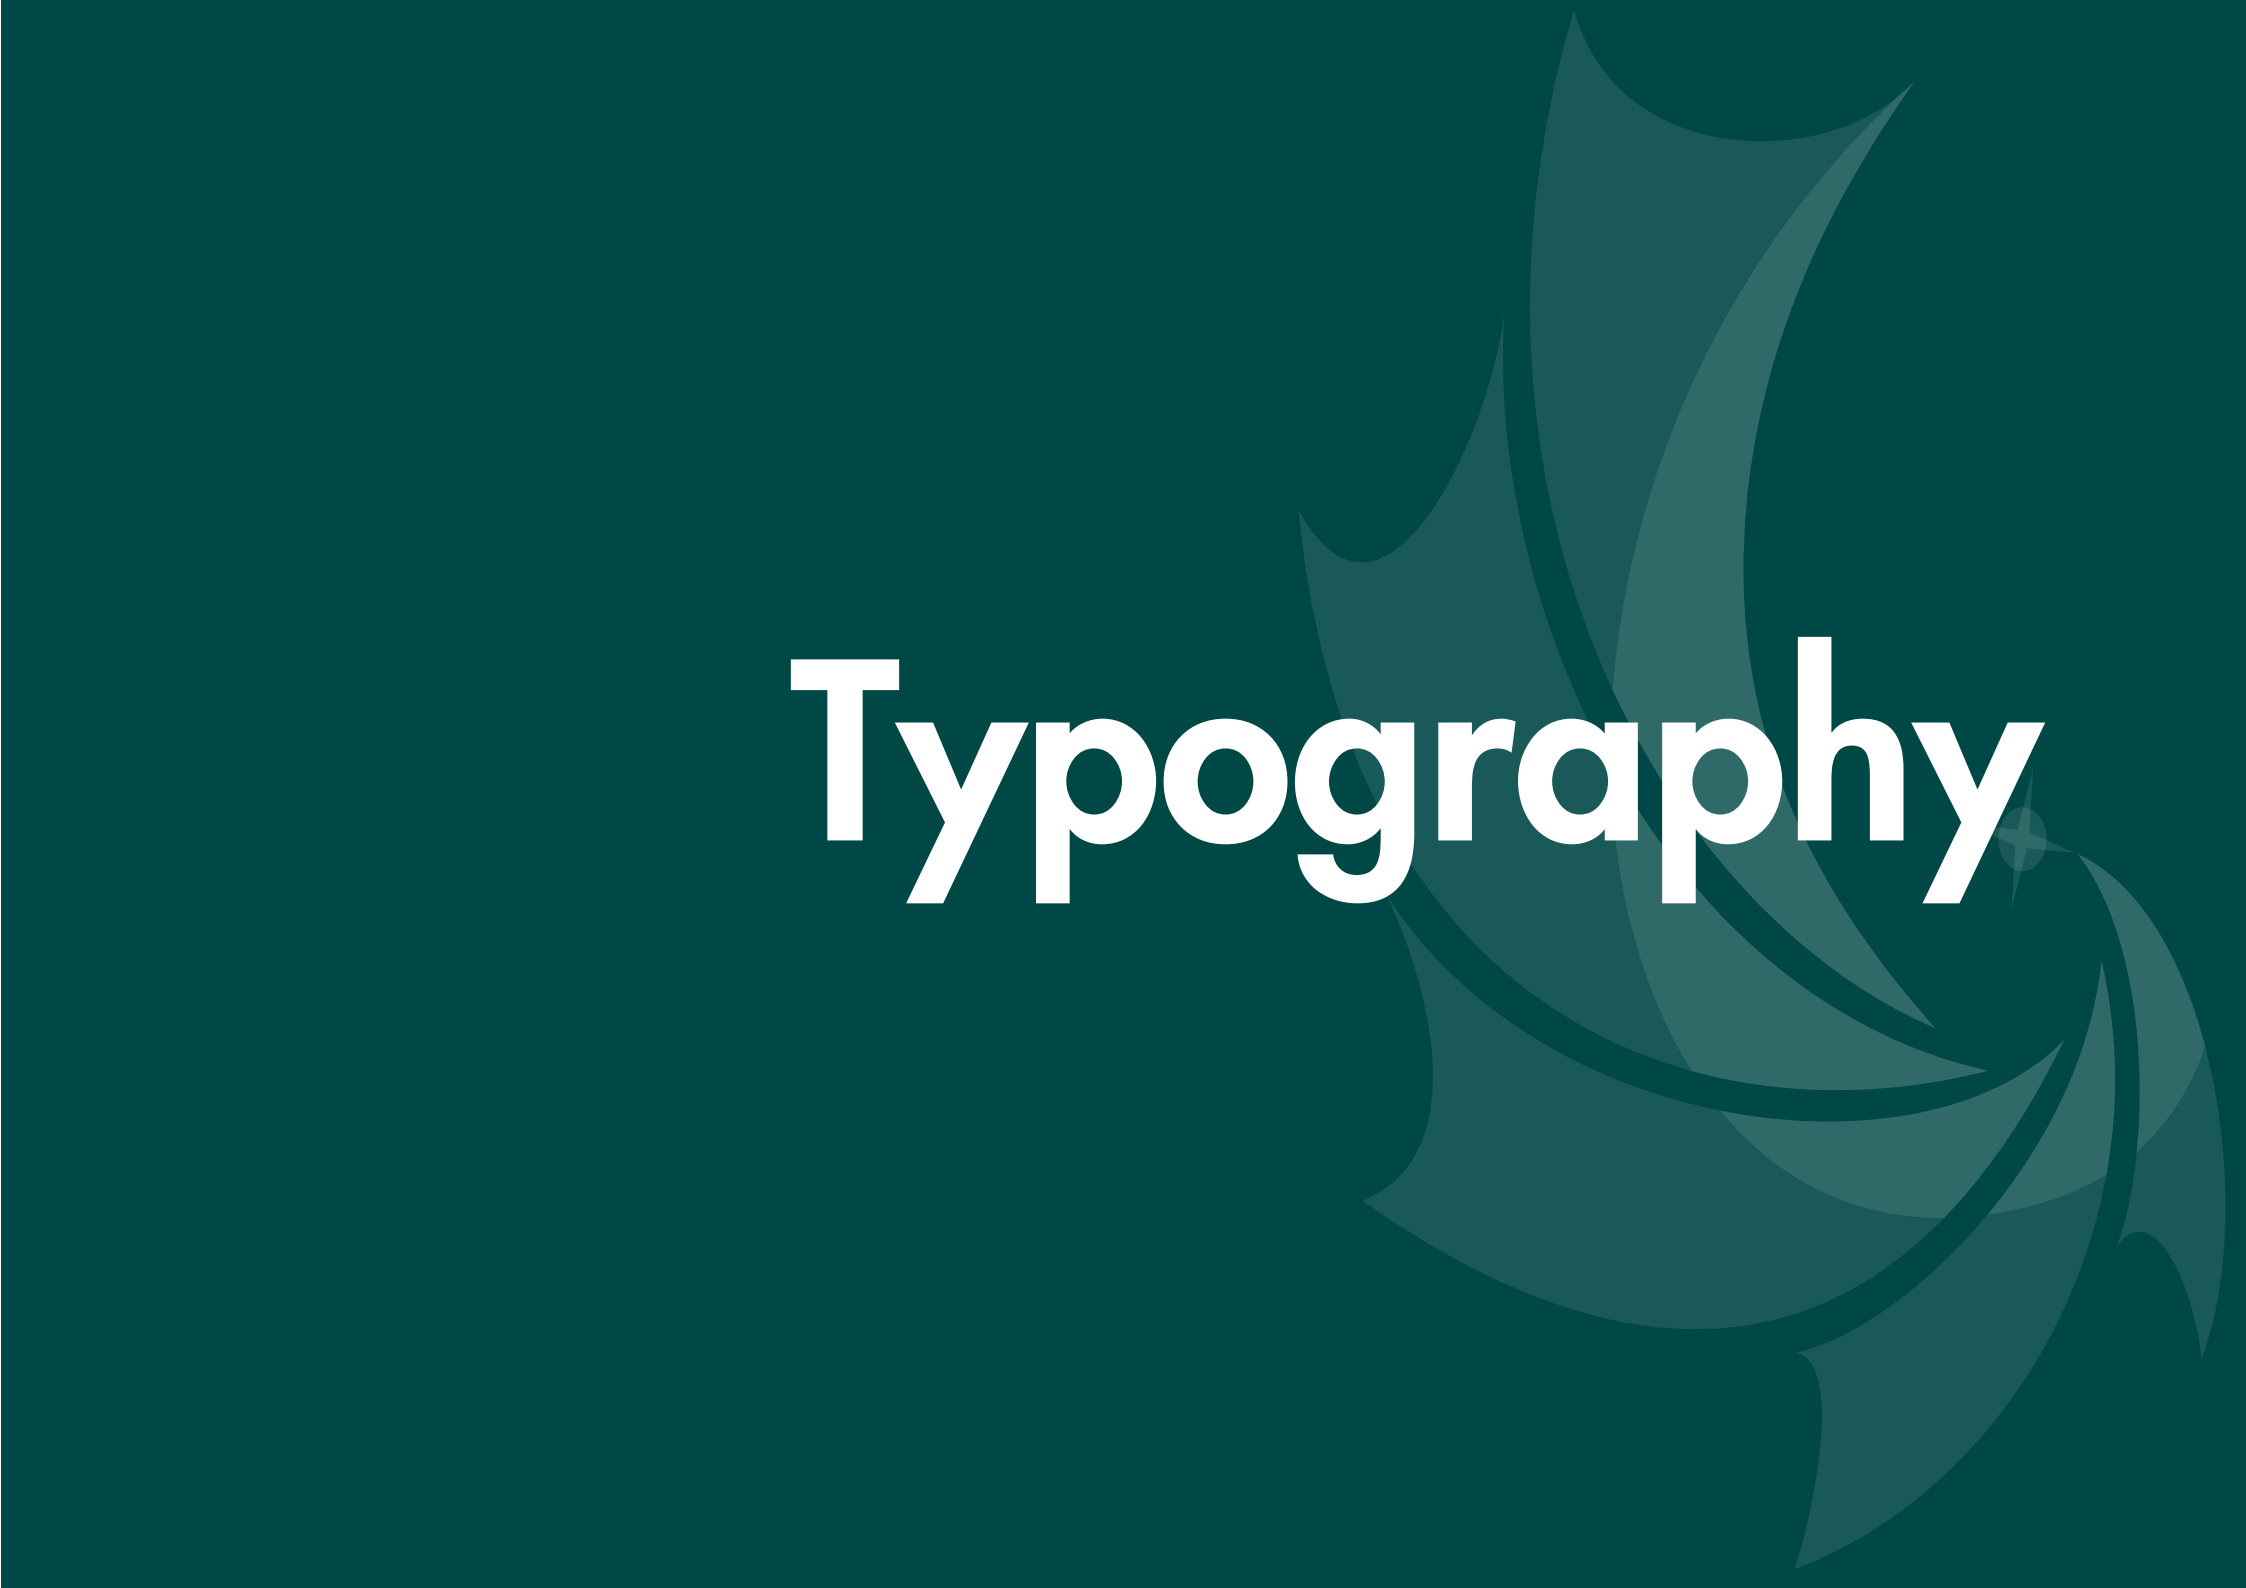

The Secondary colors are complementary to our official colors but are not recognizable identifiers for our company. Secondary colors should be used sparingly (less than 10 % of the palette in one piece).

### Usage:

Use them to accent and support the primary color palette

|                                                                                     |                                                                                                                                                                                                                                                              |                                                                                                                   |

# Typography

The background is a solid dark teal color. Overlaid on this are several large, overlapping, organic shapes in a lighter shade of teal, resembling stylized leaves or petals. These shapes are primarily located on the right side of the image. A small, light-colored starburst or spark graphic is positioned near the end of the word 'Typography'.

# Selection of primary & secondary TYPEFACES

Typography, this is a wonderful thing. Brand typefaces usually play an essential role in design; sometime it's been considered that type is more important than designs elements. Typography helps to express our message to our readers. Using the careful use of typography reinforce our **personality** for communicating successfully to targeted readers & customers. GreaterHeight has selected **Arial** as our **primary font** and **Futura** as our **secondary** corporate font; which allows us to represent our messages from the enthusiastic to the practical understanding.

GreaterHeight has selected **Arial** as our primary corporate font; which allows us for representing our messages from the enthusiastic to the practical understanding.

# Primary Fonts

## Proper selection of primary font & in detail

GreaterHeight has selected **ARIAL** as our primary corporate font; which allows us for representing our messages from the enthusiastic to the practical understanding. Using the careful use of typography reinforce our brand personality to valued customers.

The flyer features a large image of a group of people smiling and working together at a computer. Below this, there are four circular inset images showing individuals in various professional settings. The text is arranged in a clean, professional layout with a color scheme of red, green, and white.

# Type Hierarchy

## Maintaining proper level of hierarchy & in detail

One of the most important techniques for communicating properly is the use of typographic hierarchy. It's another form of visual hierarchy, a sub-hierarchy per se in an overall design project; to establish an order of importance within the data. Typographic hierarchy creates contrast between elements. Designers achieve this through the use of typefaces, size, weight, capital and lowercase letters, orientation and color.

# Graphic Elements

# Our library of graphic elements

We have provided a variety of graphic tools that create a unique look and make us recognizable. These elements shouldn't be combined but can be emphasized or played down individually to add visual interest and enhance our storytelling.

## NOTE

Find digital assets for our graphic elements library and download at **brand.greaterheight.tech**

## OVERVIEW

Like Fiat Lux, our motto, our graphic elements are all rooted in the ideas of light. Like white light, GreaterHeight Technologies is composed of a diverse set of elements. These elements appear whole when seen together but can be broken apart and explored individually like light through a prism.

When used consistently, these elements create continuity among families of materials. For example, a department could adopt one of these elements to be its primary visual direction or could use a mix of two elements for all of its communications. Alternatively, it could use all four but focus on one element for a campaign, event or initiative.

**With the exception of structural elements, never use more than one graphic element within a piece of design.**

### NOTE

Each element has a skill-level rating. Use these ratings to help determine which elements you should attempt to use in a design.

- **Easiest**  
(You don't have to be an expert to use these elements.)
- **Intermediate**  
(Moderate design skills required.)
- ◆ **Advanced**  
(Significant design experience necessary.)
- ◆◆ **Experts Only**  
(Use only if you've had some serious design training.)

## STRUCTURAL ELEMENTS

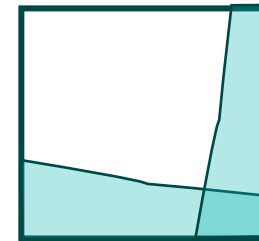

The structural elements are the nuts and bolts of our layouts. They contain key information, logos and other elements that create clarity, order and continuity in all our pieces of communication.

● Easiest

## APERTURES

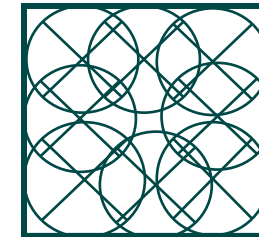

Apertures are created from triangles and work to focus on a single part of an image or add bold fields of color to a piece.

■ Intermediate

## TESSELLATIONS

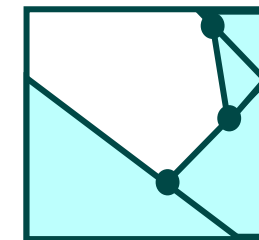

The tessellation is a pattern constructed of octagons, themselves constructed of eight individual triangles. Use the pattern to add subtle texture to layouts.

◆ Advanced

## PRISMS

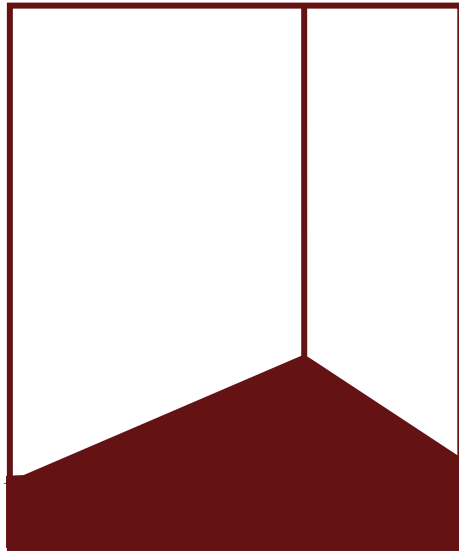

Prisms are delicate bits of linework. Use them on their own, or to magnify an image for emphasis or highlight achievement.

◆◆ Experts Only

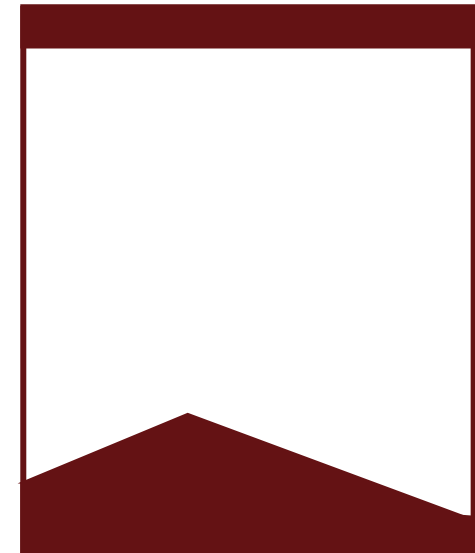

The structural elements are used to maintain consistency within complex page hierarchies. They should be used to contain labelling, wayfinding information and logos within documents.

The angular element can be combined with the diptych photographic treatment. Always match the point of the angle to the spot where the photos meet.

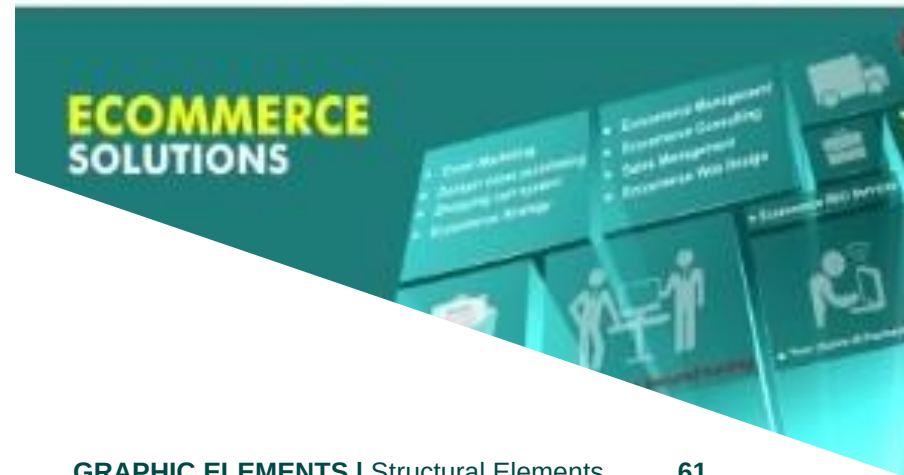

The angular structural element can be used on its own at either the top or the bottom of the page. When the angular structure appears by itself, restrict the contents to a logo and a few simple lines of text.

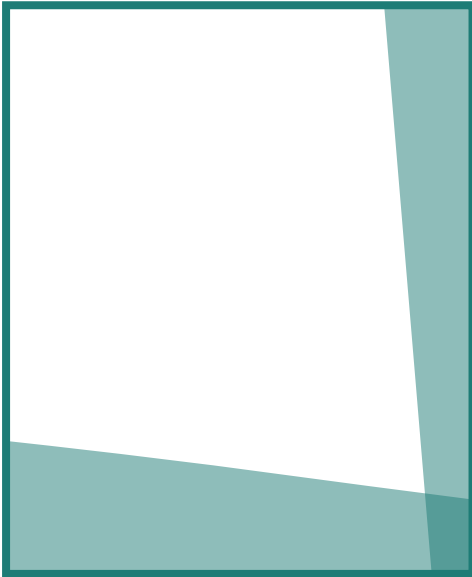

The angular element can also be used with a second straight structural element. When this is used, the angular element should only contain a logo. All labels and information should be contained at the top of the page in the straight element.

## EXAMPLES

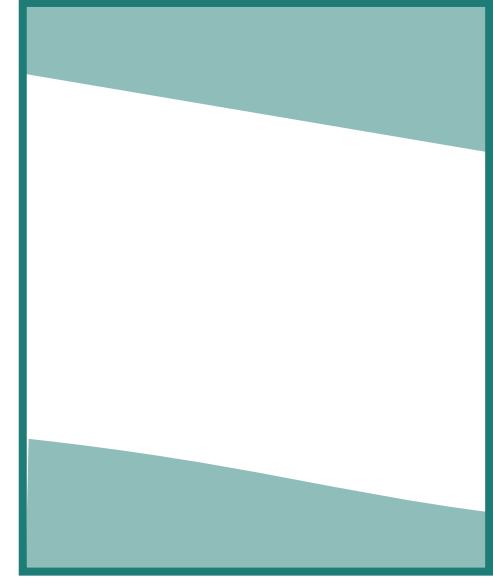

Apertures are graphic shapes that add visual interest to an image. Use them to emphasize a specific part of an image or to add color to an image that may not be completely engaging on its own.

When overlapping aperture elements, always set them to multiply in Adobe Creative Suite®. Never use more than three colors, and always use colors of a similar hue (like blues and greens, or yellows and oranges).

Use no more than three shapes when building an aperture. Always leave part of the photo frame open. This creates a “way out” for the viewer and ensures the apertures never feel like they constrict the content.

It's possible for shapes not to overlap in an aperture. This creates a more open, cleaner layout. The advantage of the aperture element is the ability to create infinite layouts that retain a similar feel.

# EXAMPLES ECOMMERCE SOLUTIONS

- Email Marketing
- Domain name purchasing
- Shopping cart system
- Ecommerce Strategy

- Ecommerce Management
- Ecommerce Consulting
- Sales Management
- Ecommerce Web Design

- Ecommerce SEO Services

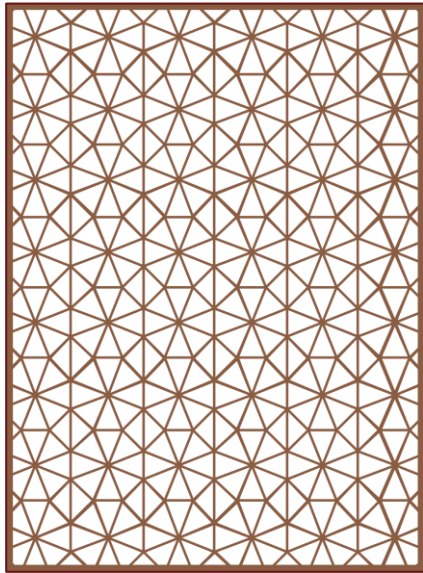

■ Ecommerce Web Development

- Ecommerce Secured hosting

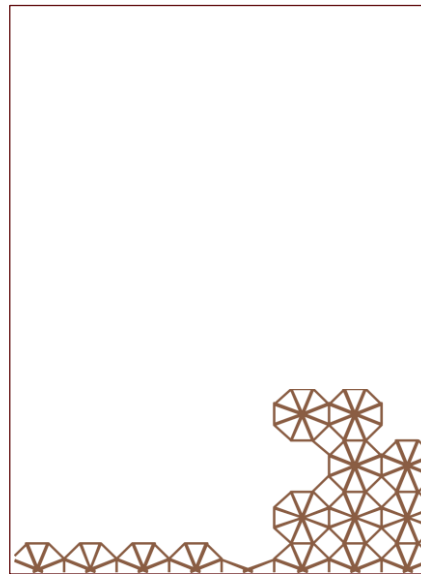

- Your choice of Payment gateway

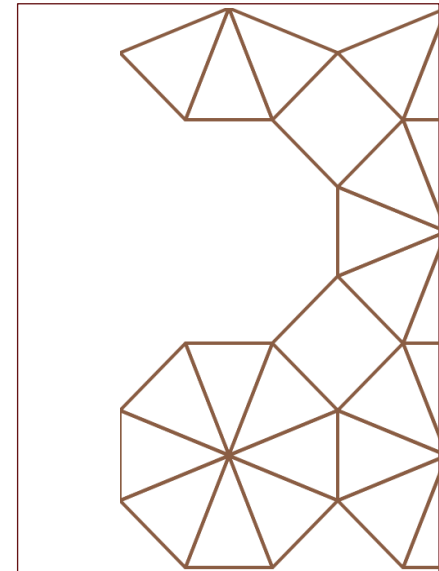

The tessellation pattern adds texture and depth when overlaid onto photography. The tessellation pattern should always be white, set to between 50 and 80 percent opacity in Adobe Creative Suite.

Use the pattern to completely fill an image that is textural or has no people. With no people, the pattern can become less transparent and, therefore, more dominant.

The pattern may be deconstructed when it's used over images with specific subject matter, such as people or objects. When people are in the photo, always maintain breathing room between the pattern and the subject.

The pattern may be enlarged, but never so much that the shapes become unrecognizable as the tessellation pattern. Make sure that, collectively, there are always two to three octagons within a layout. Never adjust the point size or add a stroke when resizing the pattern.

## EXAMPLES

# OUR SERVICES

### E-COMMERCE SOLUTION

Private your Business with affordable, and intuitively designed eCommerce solution, contact us to build eCommerce website & shopping cart, eCommerce front & custom eCommerce website, turn your visitors into customers.

### SOFTWARE SERVICES

Software engineering services provide innovative, interactive, updated and responsive solutions to the end users. For it in retail, technology, hospitality services industry - our software services for your unique business needs.

# Corporate Iconography

The background of the slide is a solid dark teal color. Overlaid on this are several large, flowing, organic shapes in a lighter shade of teal. These shapes resemble stylized leaves or petals, some pointing upwards and others downwards, creating a sense of movement. A small, four-pointed starburst or spark-like graphic is located on the right side, partially overlapping one of the larger teal shapes.

## CORPORATE ICONOGRAPHY: EXAMPLE OF ICONS: Falling in LOVE with GreaterHeight Technologies' design

### EXAMPLE OF ICONS

An **icon** is a pictogram displayed on a screen or print layout in order to help the user navigate through the content in an easier way. The icon itself is a small picture or symbol serving as a quick, “intuitive” representation of a software tool, function or a data file.

**Icons** can bring the rhythm in a design. It inspires and connects design all together. Bright, pure and energetic icons play vital role to represent the corporate identity. Icons are generally used in product as a call-to action or for purpose of quick reference. As example - to use an icon in our GreaterHeight Technologies marketing communications, such as an arrow as a call-to action in a banner ad, use the same UI icons. Icons are used for on screen purposes to make the visual presentation more interactive & legible to viewers. Use icons in proper places.

#### Requirements:

- Use icons while the words won't work.
- Background of icons to be white or black or on tiles.
- Avoid using icons if will need to provide any complex idea.

#### GUIDE TO USE VARIOUS ICONS

GreaterHeight Technologies has a portfolio of world-class designs and experts. Icons helps to make differentiation of layout giving competitive advantage than others graphic elements & image.

#### Requirements:

- High contrast
- Use with background
- Minimum size of stroke to be 0.5 pt.
- Using placeholders of black or given color

# Brand Stationery

The background is a solid dark teal color. Overlaid on this are several large, flowing, organic shapes in a lighter shade of teal. These shapes resemble stylized waves or smoke, creating a sense of movement. A small, four-pointed starburst or spark is located near the bottom right of the word 'Stationery'.

# Corporate Stationery

## International Paper Stationery

Corporate stationeries work as defining the design elements all together; creating brand personality

Stationery is a primary means of communication and it is essential that every application be a consistent reflection of our corporate identity. There is only one approve design format for all corporate and business unit stationery, although there are slight variations in size and content for different regions of the world. This section illustrates approved layouts for standard business stationery.

It includes specifications for typography, color, printing method, paper stock and word processing Stationery brand management guidelines do not include invoices, bills, of landing, credit letters, business forms, checks, e-mail tags or other business processes.
